economics letters

Category index of volume 64

C Mathematical and Quantitative Methods

E. Flachaire, A better way to bootstrap pairs (C1) 257
A. Zalewska-Mitura and S.G. Hall, Examining the first stages of market performance: a test for evolving market efficiency (C5) 1
C.D. Aliprantis, On the backward induction method (C7) 125
C.A. Greene, Testing for a break at an unknown change-point: a test with known size in small samples (C12) 13
Z. Xiao, A residual based test for the null hypothesis of cointegration (C12)133
T. Laitila, Estimation of combined site-choice and trip-frequency models of recreational demand using choice-based and on-site samples (C13) 17
W.J. Mayer, An extension of the maximum score estimator for disequilibrium models (C14)143
H.-C.(River) Huang, Estimation of the SUR Tobit model via the MCECM algorithm (C15) 25
Y. Wen and B. Zeng, A simple nonlinear filter for economic time series analysis (C19)151
M. Linden, Time series properties of aggregated AR(1) processes with uniformly distributed coefficients (C21) 31
W.G. Müller and M. Nettekoven, A panel data analysis: research and development spillover (C23) 37
S. Takagi, Bias in maximum likelihood estimator of disequilibrium and sample selection model with error-ridden observations (C24)161
R.C. Campbell and R.C. Hill, Predicting multinomial choices using maximum entropy (C25)263
M. Apel and P. Jansson, A theory-consistent system approach for estimating potential output and the NAIRU (C32)271
W. Greene, Marginal effects in the censored regression model (C34) 43
G. Löffler, Refining the Carlson–Parkin method (C42)167
K. Kasa, An observational equivalence among H^{∞}-control policies (C60)173
M. Shubik, Quantum economics, uncertainty and the optimal grid size (C60)277
J. Nemoto and M. Goto, Dynamic data envelopment analysis: modeling intertemporal behavior of a firm in the presence of productive inefficiencies (C61) 51
N.S. Kukushkin, Potential games: a purely ordinal approach (C72)279
S. Hahn, The convergence of fictitious play in 3×3 games with strategic complementarities (C73) 57

D Microeconomics

P. Lyssiotou, P. Pashardes and T. Stengos, Testing the rank of Engel curves with endogenous expenditure (D1) 61
J.-M. Koskievic, An intertemporal consumption–leisure model with non-expected utility (D12)285
D.M. Bernhofen and L.T. Bernhofen, On the likelihood of a prisoners' dilemma in a differentiated duopoly (D43)291
T.D. Jeitschko, Equilibrium price paths in sequential auctions with stochastic supply (D44) 67
M. Gupta and B. Lebrun, First price auctions with resale (D44)181
Y. Wang, The additivity and dummy axioms in the discrete cost sharing model (D63)187
D. Van de gaer, N. Funnell and T. McCarthy, Statistical inference for two measures of inequality when incomes are correlated (D63)295
H. Diamond and G. Gelles, Gaussian approximation of expected utility (D81)301

E Macroeconomics and Monetary Economics

R. Mash, Irreversible investment and the expected capital stock with stationary uncertainty (E2) 193

Elsevier Science S.A.
PII: S0165-1765(99)00163-9

N. Sarantis and C. Stewart, Is the consumption–income ratio stationary? Evidence from panel unit root tests (E21)309
C. Driver, Contrasting effects of risk on investment in two sectors: evidence from Ireland on real options (E22)315
P. Frijters, A three-factor search model (E24)319
A. Marvasti and D.J. Smyth, The effect of barter on the demand for money: an empirical analysis (E41) 73

F International Economics

F. Pansard, Target zones and small realignments (F33)325
K.P. Upadhyaya, Currency devaluation, aggregate output, and the long run: an empirical study (F41)197

G Financial Economics

J. Cable and K. Holland, Regression vs. non-regression models of normal returns: implications for event studies (G0) 81
N. Instefjord, A simple model of market liquidity (G10)329
A. Sandroni, Asset prices and the distribution of wealth (G12)203
J.F. Carriere, No-arbitrage pricing for life insurance and annuities (G12)339
F. Yu, What is the value of knowing uninformed trades? (G14) 87
M. Hirschey, Managerial equity ownership and bank performance: entrenchment or size effects? (G21)209
Y. Altunbas, J. Goddard and P. Molyneux, Technical change in banking (G21)215

H Public Economics

E. Koskela and R. Schöb, Does the composition of wage and payroll taxes matter under Nash bargaining? (H20)343

I Health, Education, and Welfare

W. Sander, Endogenous expenditures and student achievement (I2) 223

J Labor and Demographic Economics

P. Ranjan, An economic analysis of child labor (J24) 99
W.M. Rodgers III and S. Bruhl, Estimating the bias due to measurement error in the economic returns to schooling: evidence from the 1990 February Current Population Survey (J24)233
C. Grund, Stigma effects of layoffs? (J63)241

L Industrial Organization

W.C.-Y. Chi, Quality choice and the Coase problem (L12)107

O Economic Development, Technological Change, and Growth

E.I. Bairam and S.D. McRae, Testing the convergence hypothesis: a new approach (O3) 351
M. Yamada, Specialization and the big push (O11)249
C.D. Alvarez Albelo, Complementarity between physical and human capital, and speed of convergence (O33)357

Q Agricultural and Natural Resource Economics

M.D. Partridge and D.S. Rickman, Which comes first, jobs or people? An analysis of the recent stylized facts (R23)117
R.M. Braid, The socially optimal locations of three stores with stockouts or limited product selections (R32)363
